Newsletters

Volume I thru Volume III
1989 – 1991

Index Prepared By

Don C. Terrill
Fairfax County, Virginia

1992

In order to use this index, it is first necessary to page number the Newsletters, which were originally published without page numbers. The scheme used for this index is to number each edition of the Newsletter independently. Thus, Volume I Number 3 page 1 becomes v1.3p1; Volume III Number 2 page 7 becomes v3.2p7. Where an indexed name appears on two or more adjoining pages (such as pages 2 and 3), the entry would appear as v1.4p2-3.

All names, using the original text spellings, are included in this index, except as follows. Parenthetical lineage lists, although helpful to the text, are an impediment when included in an index. Example:

Philander Lorenzo[7] Tyrrel (Philander Laurel[6], Ichabod[5], Oliver[4], Josiah[3], John[2], Roger[1])

References to Roger Terrill, as the most extreme example, would be several times their present number with no benefit for the researcher. As a result, usually only the last two names are indexed from a parenthetical list.
